

RE: Proceeding 04-233

Please do not allow the Low Power FM (LPFM) stations to take priority over current FM translatio services like K-LOVE. K-Love is the only station I listen to and enjoy, they have Wholesome music, great news and I especially like the Local Weather news alerts that LKOVE provides during severe weather - which many other stations DO NOT PROVIDE. Please allow them to continue using their FM translators. Thank you in advance for your consideration.
Sincerely, Seles Browning
